## 2022 Estate Whole Cluster Pinot Noir

### Vintage Overview

Spiced cedar, black tea, and rose petal with a note of wild strawberry greet the nose in our 2022 Whole Cluster Pinot Noir. Brambly red fruit and black pepper join a savory umami quality.

### In the Vineyard

In 2022, the vintage in Willamette and Tualatin Valley AVA's started classically wet and cool, highlighted by a frightening cold spell and frost in April that reduced and damaged buds across the valley. David Hill experienced no damage, however, due to its location in the valley. Cooler than most areas, and behind in the growing stage, the vintage was protected. A cooler growing season overall and a dry late harvest season yielded high acid and full fruit, making for a fully ripe vintage. The conditions of this vintage have created wines that are balanced, with full fruit and bright acid.

### In the Winery

In 2022, our vineyard produced the right lignification of shoots to craft a special and intentional whole cluster offering. Full maceration, and fermented to dryness on stems and skins, our Whole Cluster was aged for 15 months in neutral French Oak.

#### WINE

100% PINOT NOIR

AGED 10 MONTHS IN 50% NEW FRENCH OAK AND 50% NEUTRAL FRENCH OAK

pH 3.12 | TA .68g/100ml

#### VINEYARD

### In the Vineyard

In 2022, the vintage in Willamette and Tualatin Valley AVA's started classically wet and cool, highlighted by a frightening cold spell and frost in April that reduced and damaged buds across the valley. David Hill experienced no damage, however, due to its location in the valley. Cooler than most areas, and behind in the growing stage, the vintage was protected. A cooler growing season overall and a dry late harvest season yielded high acid and full fruit, making for a physiologically ripe vintage. The conditions of this vintage have created wines that are balanced, with full fruit and bright acid.
